Hi Charis,

Just wanted to let you know that we're working on getting an answer back to you on the question in your email below. We need to get OAQPS input before can finalize the response. Assuming we can pin them down this week or early next, I would expect we will have a response back to you at the middle or end of next week. Hopefully this fits with your schedule but please let me know if not.

Thanks,

Scott

Charis,

Sorry for the delayed response as I misplaced this in my inbox and ran across it today in trying to make sure I was keeping up on emails that required my action.

Given the language in WAQSR Chapter 8, Section 3 (c)(iii)(D) "Actions which implement a decision to conduct or carry out a conforming program such as prescribed burning actions which are consistent with a conforming land management plan." it implies to me much more that following a prescribed burn management program as it specifically lists "a conforming land management plan". As such, I cannot say that following the State's Smoke Management Program is sufficient to say that prescribed burning actions are exempt.

I would suggest looking into what other BLM is doing elsewhere in respect to General Conformity for prescribed fire in nonattainment areas and then we can further discuss.

Darla
